Effective Followers respect the leaders and leadership. They are engaged, enthused about their role and the practice. They are active contributors and proactive thinkers who want to learn and grow. We call them **Self Starters**. They are ready to be leaders.

Want to find out more about how to develop yourself and help team members grow as Self Starter Followers and contribute to a **High Performance Team Culture**? Read Chapter 5 of The Leadership Edge Workbook and Curphy and Roellig's article on Followership. You will love it. Guaranteed.
